

Aiming to Become a Comprehensive Healthcare Company

As the focus of attention turns increasingly toward quality of life and the aging society, health-related issues have moved to center stage in many people's lives. As both a healthcare provider and conscientious corporate group, Mochida Pharmaceutical's mission is to make a lasting contribution to the world of medical care. Thus, the Group is taking the initiative in providing innovative medical care over a wide range of fields.

Through its activities as a key player in medical treatment and diagnosis, the Group has been able to develop an extensive and varied product line. Principal business activities include pharmaceuticals and diagnostic reagents, healthcare products, and nutraceuticals. We endeavor to provide beneficial products that embody the Company's approach of research based on innovation and vision.

• Pharmaceuticals

Mochida Pharmaceutical Co., Ltd.

Mochida Pharmaceutical Co., Ltd. has devoted unstinting effort to developing and marketing a broad spectrum of innovative new drugs. The Company's line of proprietary products began with the development of an agent for ophthalmologic disorders and grew to encompass hormones, enzymes, and immunological products. Major successes include development of Japan's first topical antiviral agent, *Arasena-A*; one of the world's first human-derived enzyme inhibitors, *Miraclid*; and natural interferon preparations in the field of biotechnology. In the area of diagnostic reagents, the Company developed Japan's first pregnancy test kit, *Gonavis*, and reagents based on monoclonal antibodies for use in diagnosis of cancer.

One of the main objectives of the Company is to make solid contributions to business performance through marketing efforts for its drugs, including the sector's leading drug for hyperlipidemia (EPA-E). One main focus for the future will be on treatment and medical care for cardiovascular diseases, including hyperlipidemia. As a result, we expect to achieve steady growth.

Mochida Pharmaceutical Plant Co., Ltd.

Mochida Pharmaceutical Plant Co., Ltd. is engaged in contracted manufacturing of pharmaceutical products. The Head Office Plant manufactures injectable, solid (oral), and topical medicines. Due to their complex nature, injectable solutions are manufactured using the latest technology under FDA and EMEA quality control standards.

• Healthcare Products

Mochida Healthcare Co., Ltd.

Mochida Healthcare Co., Ltd. is able to draw on its extensive experience in the development of pharmaceuticals to create skin care products for the general public, and these are supplied through pharmacies and drugstores. The quality and reliability of the firm's healthcare products are widely recognized by physicians and pharmacists, as well as consumers. Our healthcare products business is currently expanding product lines to meet growing demand for products in this field. Efforts are also focusing on increasing awareness of the *Collage* and *Skina* brands.

From Cross-Divisional to Cross-Corporate Coordination

Each company in the Mochida Pharmaceutical Group is not only striving to strengthen the foundations for sustainable growth of their own businesses but also continuing to devote their best efforts to the Group's aim of making significant contributions to the improvement of human health and welfare as a comprehensive healthcare company. We also emphasize the importance of partnerships with other companies for the effective complementing and reinforcement of our principal businesses.
